

**Name : Somesh Gavali**

**Mo.No : 7066779023**

**Email : [someshgavali1996@gmail.com](mailto:someshgavali1996@gmail.com)**

## **Software Developer**

### **PROFESSIONAL SUMMARY:**

- **3+ years** of development experience in **React.js** and **Next.js**, working as a **Frontend** Developer.
- Developed and maintained **React components** and screens for web applications.
- Participated in **design** discussions regarding application architecture, feature implementation, and other relevant topics.
- Designed user interfaces as per requirements and created mockups as needed.
- Created interactive components using **React**, including buttons, text fields, checkboxes, and radio buttons.
- Integrated **APIs** into web applications using **fetch** and **axios**.
- Utilized **JavaScript** libraries like **Redux** for **state** management of components.
- Managed application state using **React hooks** and **context API**.
- Implemented push notifications using libraries like **Firebase Cloud Messaging (FCM)**.
- Worked with **React Navigation** for handling navigation between different screens in the app.
- Optimized app performance and improved load times by implementing best practices and performance monitoring.
- Strong command of **server-side** development using **Node.js** and **Express.js** framework
- Collaborated with **backend** developers to integrate **RESTful APIs** and handle data fetching.
- Conducted code reviews and provided feedback to ensure code quality and adherence to standards.
- Experienced in version control systems like **Git** for collaborative development and source code management.

### **TECHNICAL SKILLS:**

Frontend	<b>React.js, Next.js, Tailwind, JavaScript, Typescript, Redux, React hooks, Context API, React Navigation, HTML/CSS, React Native</b>
Backend	<b>API integration (Fetch, Axios), RESTful APIs, Node.js, Express.js, MongoDB</b>
Others	<b>JavaScript libraries, Design, Push notifications, Code reviews, Optimizing web performance.</b>
Tools	<b>Github, Gitlab, Clickup, Postman, Jira</b>

## EDUCATIONAL QUALIFICATION:

Year	Degree	University	Grade
2021	BE	Pune University	First Class

## CERTIFICATIONS AND ACHIEVEMENTS :

- **Internship Certificate from Maxotag Technology pvt.ltd.**
- **Awarded for outstanding performance and dedication, leading to a significant career advancement.**

## EXPERIENCE SUMMARY:

**Company :- IOWeb3 Technologies Pvt.Ltd, Pune India. (March 2024 - Present)**

-  **Project** : **FoodiePe (Mobile Application)**
-  **Role** : **Team Lead and Full Stack Developer**
-  **Period** : **April 25 - Sept 25**

### Responsibilities:

- Developed a cross-platform food ordering ecosystem including a **mobile app (Android & iOS)**, a **visitor web app**, and an **admin panel**.
- Designed and implemented **secure JWT authentication** with role-based access for Users, Canteen Staff, Visitors, and Admins.
- Coordinated a 4 member team, handled architecture design, sprint planning, and code reviews, while contributing to core feature development.
- Used **Context API** to simplify state management and improve maintainability of complex business **logic**.
- Implement an order **tracking** dashboard with real-time updates.
- **Error Handling** : Developed comprehensive error handling strategies to provide users with clear feedback and maintain application stability.
- One time-based menus, payments, QR code orders, wallet, user/canteen dashboards, and analytics.
- Published the mobile app successfully on **Google Play Store** and **Apple App Store**.
- Successfully delivered the project on time and within budget, meeting or exceeding all project goals.

 **Project** : **First Freight Carriers (FFC)**

 **Role** : **Frontend Developer**

 **Period** : **October 24 - February 25**

### **Responsibilities:**

- Implemented user authentication and role-based access control, safeguarding sensitive features from unauthorized access.
- Designed intuitive forms and tables to manage crucial business data, including **customers, vendors, ports, destinations, Rates, Order and Delivery**.
- Optimized rendering performance by implementing memoization, virtualized lists, and efficient event handling.
- Used **Context API** to simplify state management and improve maintainability of complex business **logic**.
- Implement an order **tracking** dashboard with real-time updates.
- **Error Handling** : Developed comprehensive error handling strategies to provide users with clear feedback and maintain application stability.
- Successfully delivered the project on time and within budget, meeting or exceeding all project goals.

 **Project** : **UpCert**

 **Role** : **React JS Developer**

 **Period** : **May 24 - August 24**

### **Responsibilities:**

- Designed and implemented user friendly interface for seamless student registration and login processes.
- Developed and integrated secure **gateway** to facilitate certificate purchases.
- Implemented a streamlined process for students to buy certificates, take tests and access their results.
- Collaborated with backend developers to ensure efficient data flow and functionality.
- Utilized **react** components to create a **responsive** and **dynamic** user experience.
- **API Integrations** : Worked closely with the backend team to integrate **RESTful APIs**, ensuring smooth communication between **frontend** and **backend**.
- **Error Handling** : Developed comprehensive error handling strategies to provide users with clear feedback and maintain application stability.

- **Authentication & Security** : Implemented robust authentication mechanism, including **JWT** tokens, to enhance security and protect user data.
- Successfully **delivered** the project on time and within **budget**, meeting or exceeding all project **goals**.

**Company :- Senwell Solutions (April 2023 - March 2024)**

 **Project** : **Select Your University**

 **Role** : **Frontend Developer**

 **Period** : **May 23 - Dec 24**

#### **Responsibilities:**

- Designed and implemented **user-friendly** interfaces for both SYU web application using **Next.js**.
- I was working on SYU web application, its was not just an experience, it was achance for me to demonstrate my commitment to learning and growth in the field of web developement.
- I faced challenges head-on and consistently sought ways to improve my coding skills and problem- solving abilities.
- Experienced **React** Developer with a strong passion for creating innovative and efficient **web applications**.
- **Restful API** Development and Deployment and hands on Experience with **React Hook**, **ContextAPI**, Routing Working Knowledge Of **Node**, **Express** & **Mongo DB**.

**LANGUAGES** : English, Marathi, Hindi

#### **DECLARATION:**

I hereby declare that the above-mentioned information is true to the best of my knowledge and belief.
